

European project manager

Company

[Strane](#) is the first startup studio dedicated to deeptechs for improving society and environment. Our goal is to create a sustainable impact. We develop startups from scratch up to their creation and commercial deployment. We have developed an expertise in circular economy, water, industry, digital solutions, and cognitive sciences. Strane participates in many European collaborative projects. We have created several startups, especially Seitiss which builds and operates circular supply chains valorising industrial wastes as raw materials in other industries.

Your role

Strane is currently recruiting a European project manager to develop and implement Strane's R&D strategy by acquiring and managing European projects. He/she will collaborate with the experienced European project Officer already employed in Strane and will report directly to the CEO.

As a start, the project manager is to manage our contributions in at least 3 projects on industrial symbiosis. 2 projects (ULTIMATE, AquaSpice) are Innovation Actions and include leading academic and industrial partners throughout Europe. 1 project (to start in June) is a CSA and aims to develop a European CoP on industrial symbiosis, with prominent partners on IS in Europe (including Seitiss).

Your activities would be the following:

- Be WP Leader for these 3 European projects, making the interface between Strane's staff and our project partners, ensuring that Strane makes the best of the project resources and delivers smoothly our expected contributions
- Roadmap the R&D strategy by watching external opportunities, internal resources and capabilities and proactively develop R&D projects
- Acquire new Horizon Europe projects: assess upcoming calls, source consortia and build up our contributions
- Manage Strane's process for the exploitation of project results
- Manage knowledge and processes, and consolidate best practices
- Analyse and manage project resources to make the best of them
- Create and maintenance of project management tools

Your profile

In order to be considered for this position, the applicant must demonstrate the following:

- ✓ Evidenced experience in building, managing and exploiting H2020 and Horizon Europe projects
- ✓ Experience in circular economy, industry and digital solutions
- ✓ Sound technical and business capabilities
- ✓ Organized, reliable, open-minded, curious, responsible, autonomous
- ✓ Capacity to generate bright ideas on very diverse topics
- ✓ Sheer interest in a meaningful job creating an impact
- ✓ Full proficiency in French and English
